1. Start with the printed side up.  
Turn over (from left to right)

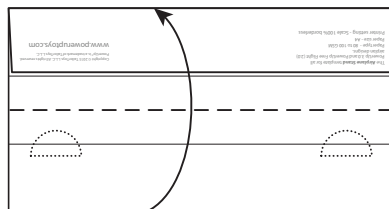

2. Fold the lower edge to the  
upper edge and unfold.

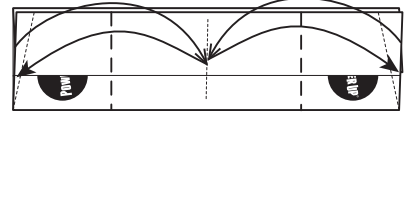

3. Fold the lower edge to the  
center line and unfold.

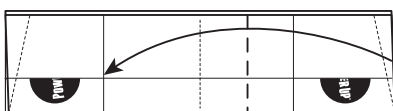

4. Fold the upper edge to the  
center line.

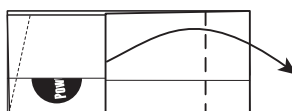

5. Fold the lower edge to the  
new upper edge.

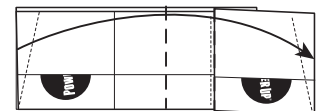

6. Fold both left and right sides  
to the printed center line. Unfold.

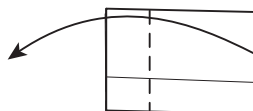

7. Fold the right edge to the new  
fold line on the left.

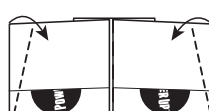

8. Fold the same edge back, along  
the existing crease line.

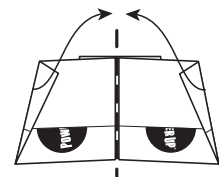

9. Fold the left edge to the right  
edge.

10. Fold the same edge back, along  
the existing crease line.

11. Fold the edges along the  
printed crease lines.

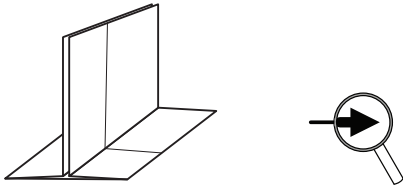

12. Bring both left and right flaps to  
meet in the center. The model  
becomes 3D now! Next image is  
from a different point of view.

13. This is the result. Next image is enlarged.

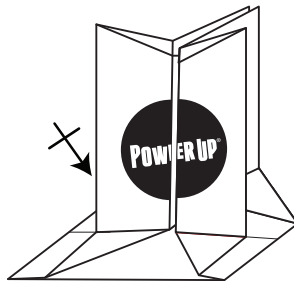

14. Bring the dotted red line to the full red line, while making a new crease (\*) and using the existing one (#).

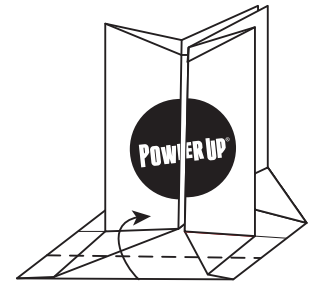

15. Repeat on the other side.

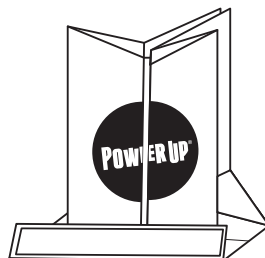

16. Lock the back corner by folding it with a 45 degrees fold line.

17. Repeat with the other corner.

18. Fold the front flap up, to create a name tag

19. Write in your airplane's name  
on the available tab.  
Your stand is ready!
